RESIDENCE BURNS AT MELBER WITH LOSS ABOUT \$2000

Defective Flue Causes Destruction of Lee Walters New Home.

Stable and Barns Saved by Bucket Brigade.

PROPERTY PARTLY INSURED.

Melber, Ky., June 26. (Special.)—The residence and most of the household furnishings of Lee Walters burned this morning at 11 o'clock. When discovered the blaze had caught in the attic from a defective flue in the kitchen, and before the bucket brigade could get down to effective work, the fire had the upper hand of the residence. It burned so fiercely that only a small part of the household goods were saved.

Mr. Walters was out in the field at the time and Mrs. Walters was starting a fire preparatory to getting dinner when the fire started. The house was burned to the ground, and with the household goods the loss probably will be between \$1,500 and \$2,000 with about half insurance. The neighbors responded to the general alarm, and did their best to save the dwelling, but it was doomed. The residence had been rebuilt recently.

A newly erected stock barn caught fire, but was saved after a hard fight. Simultaneously the tobacco barn caught on the roof from sparks, and also the smoke house, but all of the outbuildings were saved after a plucky fight by the amateur firemen.

STABLE BURNS.

On Premises of W. F. Paxton—Loss About \$200.

The stable of W. F. Paxton, 1929 Jefferson street, was burned today at noon, with a loss of about \$200 and no insurance. The fire caught the building from a pile of trash that was being burned in the back yard. When Companies Nos. 3 and 4 answered the alarm the stable was a mass of flames, but in half an hour the firemen had the last ember out. The fire while a short one, was hot, and Freeman Russell Hughes, of No. 3 station, had his neck burned and blistered by the heat. Nothing of value was in the stable.

Campaign For Governorship in Tennessee Between Patterson and Carmack Warmest in Recent Years

Paducahans Are Interested in Fight on Account of Issues Involved—Dr. Bolling For Patterson.

The campaign for the Democratic nomination for governor of Tennessee has developed one of the warmest political scraps in history and the outcome of the primary Saturday will be watched with interest by many in people of Paducah who formerly lived in Tennessee and because of the recent developments that have linked the name of Paducah with the fight. Like the great majority of campaigns in the south the temperance question has entered largely into the campaign. Senator Carmack being supported by temperance leaders and Governor Patterson, who stands for re-election, is supported by the liberal element. Women have taken a great interest in the campaign and are taking a prominent part. At the speaking at Paris recently two prominent society women engaged in a fight on the streets.

Paducah was given prominence in the campaign by a report being circulated that the Brewery Agents' association and Beer Drivers' Union had written a letter to Mrs. F. W. Preston, of Union City, thanking her for writing an open letter in support of Gov. Patterson and "personal liberty," and making the declaration that designing politicians were using the temperance question as a bridge to carry them into public office. Such a letter was written supposedly in Tennessee and mailed in Paducah, but signed by a fictitious name and it is believed was a clever scheme on the part of the Carmack people.

The letter was sent to Chief Collins and Detective Henry Bailey made an investigation which showed that the brewery agents, beer drivers and bartenders had never thought of writing such an endorsement and that the name signed to the letter was fictitious.

An attack was also made upon Mrs. Preston by the Rev. R. H. Pigue in the Fulton Methodist church, which has a large circulation in Tennessee, and a scathing rebuke was administered the editor by the husband of the woman in an article printed in Fulton and other papers.

Another interesting feature to Paducahans is that Dr. W. T. Bolling, formerly pastor of the Broadway Methodist church, but now stationed at Paris, has been prominent in the fight, but is supporting Gov. Patterson, believing that he should be endorsed and that Carmack is not sincere in his temperance views.

Dr. Bolling's church at Paris is badly divided over the gubernatorial contests and an attempt was made to force the pastor to resign, but only two of the stewards voted for the resignation.

Killing at Lebanon.

Lebanon, Tenn., June 26.—The first killing of the present gubernatorial campaign occurred here yesterday morning when Capt. Ellis Harper, 68, an ardent champion of Senator Carmack, was shot and killed by W. E. Sulte, a Patterson follower.

The killing grew out of an article in the Nashville American Tuesday, signed "Hill Billy," in which the writer went out of his way to reflect on Capt. Harper and other good people of the community, who are lined up behind Senator Carmack in his fight for the nomination for governor.

Investigation showed that Sulte was the author of the letter, the information, it is said, coming from the editorial rooms of the American.

Capt. Harper met Sulte near his home and high words followed. Sulte claims he was attacked with a walking stick by the aged veteran and that he fired in self-defense. After being shot three times Capt. Harper drew his revolver, a .44, aimed, but did not have strength to pull the trigger, and fell dying to the pavement.

Sulte was given a preliminary hearing this morning, waived examination and gave \$10,000 bond, being required to report from day to day.

Capt. Harper was a picturesque figure during the Civil war and was a noted Confederate raider. He was well connected throughout the state.

A son, John Harper, lives at Russellville, Ky.

CHAUTAUQUA PLANS

AGAIN DISCUSSED BY DIRECTORS OF ASSOCIATION.

Railroads and Steamboat Lines Will Probably Sell One-Fare Round Trip Tickets.

Chautauqua plans were again discussed by the directors of the association in a meeting at 9 o'clock this morning. Mr. Fowler stated on behalf of the steamboats that tickets to Paducah from river points would be sold for one fare for the round trip, provided the visitors had their tickets validated at the Chautauqua grounds. Arrangements will be made with the railroads similarly, if possible.

Advertising will be distributed in the surrounding towns to make the out-of-town attendance as large as the merit of the program warrants. The tent committee will try to arouse a high interest in the camping feature, which in other Chautauquas is considered the leading attraction. More tickets were sold today and the 200 left unsold will be gone in a few days at the present rate.

CLOSING

ARGUMENTS BEING MADE IN CHAMPION CASE.

Jury Will Get Case Late This Afternoon but May Not Consider It Until Morning.

Benton, Ky., June 26. (Special.)—The case of Dr. E. Champion, of Lyon county, one of the alleged night rider captives, will be given to the jury from McCracken county this afternoon. Hon. Charles K. Wheeler and Judge W. A. Berry, for the defense, spoke this afternoon, and Commonwealth's Attorney John G. Lovett concluded for the prosecution. County Attorney W. M. Reeder and Attorney Jack E. Fisher spoke this morning.

The trial has been fought bitterly on both sides, and with a jury from McCracken county the interest in the case has developed wonderfully. It is probable that the jury will not consider the case until tomorrow morning.

GIRL THROWN FROM BUGGY AND BADLY BRUISED

Little Julia Cook Victim of Accident on South Sixth Last Night.

Blane Kilgore Also Rendered Unconscious.

DARKNESS CAUSED ACCIDENT

In a collision last night at 10:30 o'clock little Miss Julia Cook, the eight-year-old daughter of Mrs. Fannie Cook, 420 South Sixth street, was thrown from a buggy and painfully bruised. By the crash of the collision the horse of Mr. Blane Kilgore became frightened, and he and Miss Carrie Thornberry were thrown out. Mr. Kilgore was knocked unconscious and was badly bruised about the face, head and hips, but Miss Thornberry was more fortunate as she was not hurt so badly.

Little Miss Cook was sitting in the rear seat of the buggy holding the lines of her pony, when Mr. Kilgore came down Sixth street. In the darkness he struck the buggy, and smashed one wheel. Miss Cook was thrown to the street, and a gasp cut in her lower lip, and one in her left foot. The pony did not run, but crowded to the sidewalk. Had the girl been in the front seat she may have been badly injured.

Mr. Kilgore's horse was frightened by the smashup, and before he could get it under control, a car passed, and increased the excitement. The horse lunged and Mr. Kilgore and Miss Thornberry were thrown out. Fortunately the injuries were no more serious, but the buggy was badly damaged.

Sullivan, of the Broadway Methodist church. The burial will be in Oak Grove cemetery.

Miss Parrott was the last member of the Parrott family, who were well known in Kentucky. Miss Parrott's father and mother lived to be over 90 years old and two sisters lived to be over 90 years and one brother died when a young man.

During her residence in Paducah Miss Parrott became an intimate friend of Mr. and Mrs. Don Gilberto, who administered to her comfort and with other friends made her life happy in her declining days.

Things That Cleveland Said.

Public office is a public trust.
After an existence of nearly twenty years of almost innocuous desuetude these laws are brought forth.
It is a condition which confronts us—not a theory.
Party honesty is party expediency.
If the wind is in the south or west so much the better, but let's go fishing, wherever the wind may be.
Don't give your friend wild duck uncooked unless his wife knows how to cook it; the gift will be discredited in the eating.
The duck hunter is born—not made.
I would not have our people sober; but would have them thoughtful and patriotic.
I do not believe that nations any more than individuals can violate the rules of honesty and fair-dealing.
Tread lightly, gentlemen, for you have to do with temples of the Ghost. (This to assembled physicians.)

ANTI-INJUNCTION

PLANK MAY BE IN DEMOCRATIC PLATFORM.

Denver, June 26.—It is expected that the Democratic convention will grant the most of the labor leaders' demands. Leaders here admit that Bryan will control the convention and his wishes will be paramount. The labor plank of Nebraska state platform regarding injunctions will probably be the model for the national platform. The National manufacturers association will try to prevent a strong anti-injunction plank. It is reported Alton B. Parker will lead the fight for a conservative platform.

FIRST FLAG

FLIES FROM NEW KENTUCKY CAPITOL BUILDING.

Unfurled at Half Mast Thursday's Tribute to Late Grover Cleveland.

Frankfort, Ky., June 26.—The first flag to be flown from the flag pole at the new capitol was flung to the breeze at half-mast Thursday morning as a tribute to the late Grover Cleveland, twice President of the United States. MILITARY DISPLAY FOR PROTECTION OF LIVING PRESIDENT

No Honorary Pall Bearers, Singing or Eulogy at Grave But Four Presbyterian Ministers Read Simple Burial Service.

Princeton, N. J., June 26.—The funeral of Grover Cleveland will be marked by extreme simplicity. Although twice elected president of the United States no pomp or splendor will have a place in the ceremonies. There will be no bands; no military escort, no eulogy. The thoroughfare through which the cortege will pass to the cemetery will be policed by mounted troops and blue coated soldiers, but they will be there for police duty and as a measure of precaution in protecting the living president, rather than as an element of displaying paying tribute to the departed chief executive. It has been Mrs. Cleveland's wish to avoid any of a military display at the funeral and it was only when the necessity of guarding President Roosevelt, who is to be in attendance, was borne upon her by those in charge of the funeral arrangements that she consented to the presence of troops in police capacity.

Final Arrangements.
The final arrangements for the ceremony and the names of those selected to officiate were announced yesterday, when acceptance from all had been received. Four clergymen will officiate at the house and at the grave. They will read the burial service from the Presbyterian book of common worship, but will offer no eulogy or singing at the grave. Scores of prominent mourners arrived this afternoon. Including federal judges, senators, congressmen and many noted private citizens. Hundreds of floral offerings and messages of condolence were received. During the morning street fakirs with souvenirs, postals and buttons, arrived, but the police drove them out. The body of Cleveland was not put in the casket until just before the ceremony. Only Mrs. Cleveland and a few friends saw his face and the casket was closed, before being carried to the room where the ceremony will

TREATMENT FOR
BRIGHT'S DISEASE

(Honolulu Evening Bulletin.)
It is a curious but satisfactory fact that chronic Bright's Disease, which, according to medical authorities, is in an incurable and fatal disease, is now actually being cured. We have not attached importance to the statements of recovering we have seen in the papers from the States, but that they are not all rumors is now evident from several recoveries here.

A. H. Otis, of the Honolulu Drug Co., tells us of two interesting cases. One was swollen with dropsy due to advanced Bright's Disease, and both the patient and his physician had given up hope. Otis kept urging a trial of the new treatment until the patient finally consented. Recovery was complete, the patient leaving a few months later for California, where he now resides.

Another case was that of an officer on one of the island steamers. He was in a hospital and considered hopeless when put on the treatment. He has now been back at his post for some time.

Otis says there are very few failures, but that it requires patience—Honolulu Bulletin.

I heard about this and sent for it in the interest of patients here. I will be pleased to give any one calling full information.—W. B. McPherson, Paducah.

TRIBESMEN KILL AMERICANS.

Former University of Chicago Student Victim of of Filipinos.

Manila, June 26.—A telegram received here today from the Island of Negros tells of the murder of H. D. Everett, a government forester; T. R. Wakely, a schoolteacher, and four Philipinos by Hill tribesmen. The party had started across the island, which is one of the least civilized of the extreme southern group, and had been missing for six weeks.

Washington, June 24.—H. D. Everett, a native of New York, was transferred to the Philippine forestry service from the forestry bureau here in August, 1905. The Negroes had given the authorities the least trouble of any people in the archipelago.

You can flatter any man by asking his advice.

SPOTLIGHT HELD
BY KENTUCKIANS

Women From Bluegrass Occupy Important Places.

In Club Federation Meeting At Boston—Mrs. Breckenridge Tells of Educational Awakening.

TODAY RHODE ISLAND DAY.

Boston, June 26.—In the constant swirl of business meetings, duplicate meetings, conferences literature sessions, overflow sessions and what not that fill and crowd the programme set forth for the many thousand club women here, and in the perusal of teas, trips, readings and receptions, the unique and pretty Bluegrass badges which decorate the white shirt waists from Kentucky are in constant evidence.

The terrific, sweltering heat of yesterday, which still continues, seems not in the least to lessen the clubwoman's ardor and desire to participate in each number on the programme.

Mrs. Desha Breckenridge, of Lexington, will be in the limelight Saturday morning, when she will occupy the stage at Symphony Hall and deliver an address on "The Educational Awakening in Kentucky."

Will Meet Governor.

Mrs. Augustus E. Wilson, Mrs. Ballard, Mrs. Stratton, Mrs. Morton and Mrs. Dodd, of Louisville, have accepted an invitation to meet Gov. and Mrs. Guild and Lieut. Gov. Draper and Mrs. Draper in the Council Chamber at the Statehouse.

Mrs. Desha Breckenridge is being talked of for a position on one of the general federation committees, and it is considered quite likely that she will secure the appointment.

Today will be Rhode Island day, and something over a thousand of the delegates have signified their intention of taking this trip, which will consist of a trip to fashionable Newport, an old-fashioned clambake on Eastern Narragansett Bay. Among other Kentucky women who will go are: Mrs. Charles P. Weaver, of Louisville; Mrs. Morris Barlett, of Lawrenceburg, and Mrs. C. B. Barnes of Louisville.

Mr. Harry Owen has purchased the game chickens of Will Baker of the Hinkleville road, and will improve the stock. He purchased about 200 of the fighting fowls, but intends to add to the number, and have some of the best stock in Western Kentucky.

AMMUNITION.

Seized by Treasury Official on Steamer Ready to Sail to Cuba.

New York, June 26.—Agents of the treasury department today seized on board the steamer Segurana, ten thousand rounds of ammunition intended for shipment to Cuba.

What significance, if any, attaches to the seizure could not be learned. It is said that Octavio A. Dezayas, consul of Cuba, in this city, recently was informed by the secret service bureau at Washington that the bureau had learned of plans under way in the United States and Cuba for the organization of an insurrectionary movement on the island.

As a result detectives have been on the lookout for a possible shipment of arms and ammunition into here.

"Forgot to Pay
My City Taxes"

This doleful exclamation so often uttered by forgetful tax payers after July 1st, when they are caught for the penalty—Then comes the sad thought—"Too late."

Ten per cent must be added to all June tax bills after July 1st. Therefore, would respectfully ask all who can to call at the city treasurer's office as soon as possible as there is always an uncertainty about depending on the last day.

By complying with request you will protect your own interests and also confer a favor on

Yours very truly,

City Treasurer.

CHINN WILL APPEAL

To Legislature to Investigate Conduct of the Penitentiary. Frankfort, Ky., June 26.—When the next Legislature meets in regular session, if the matter cannot be gotten before the two houses of the General Assembly at a special session, a formal investigation of the conduct of the penitentiary at Frankfort will be requested. George Chinn, formerly warden there, and the investigating committee will be asked to go thoroughly into everything connected with the management of the prison. Mr. Chinn will lay before the investigating committee evidence which he claims will

substantiate the charges which he made after he was removed as warden. He claims that he will be able to prove the charges that he made in connection with the management of the prison by the Board of Commissioners.
Unwilling to rest under dismissal as warden of the penitentiary for no reason whatever, he says, Mr. Chinn will not let the matter drop. He was in Frankfort today and said that he would not let the prison and the prison management alone until he had been vindicated or until an investigation has been made by the Legislature.

STUYVEY'S FISH

SELLING ALL HIS ILLINOIS CENTRAL HOLDINGS.

Acknowledges Defeat By Harriman and Will Discontinue His Interest in the Railroad.

Chicago, June 26.—The Inter-Ocean today says: Within the last few weeks Stuyvesant Fish, former president of the Illinois Central railroad, is said to have sold approximately 10,000 shares of his Illinois Central holdings. With the liquidation of the balance of his holdings—a matter of 2,500 shares—which, it is presumed, will soon take place, he will discontinue his interest in the road he began to build for twenty years he presided as president.

The Fish connection with Illinois Central affairs, now believed to be drawing to a close, covers a remarkable period in the railroad history of the country, and in that period no figure was more conspicuous than Stuyvesant Fish. The picturesque and long-drawn out fight waged against

him by Edward H. Harriman for the control of the Illinois Central, defeat in which is apparently acknowledged with the sale of stock, was only a type of the battles he fought through three decades.

Daily Thought.
"No education is adequate to the
needs of life which does not produce
decision of character, courage, self-
control and perseverance."

MUTES NO MORE.

A new York contemporary tells of
an impressive scene at the graduating
ceremonies of the Institution for Im-
proved Instruction of Deaf-mutes. It
showed the advancement recently
made in rendering the speechless no
longer mute and in educating the
deaf as they have not been commonly
educated before. As an example,
two essays were read by young girls
to whom the recognition of all sound
is denied, and who but a year ago
would have been designated as
mutes. These children, then, are
mutes no more. With an articula-
tion which is described as being "an
improvement on much of that of chil-
dren in whom the sense of hearing is
acute and to whom so careful a
training in speech is not given,"
these young girls conveyed the words
of their essays intelligibly to the
audience. It was a great achieve-
ment for the instructors in the new
methods of scientific education of the
deaf-mute. It was the conquest of
the impossible. From this time for-
ward the progress in the work should
be swift, general and substantial.

But that was not all. "No less
gratifying and satisfactory," says the
Brooklyn Eagle, "was the demon-
stration of 'lip reading.' The prin-
cipal of the school, in awarding the
diplomas, made an oral address to
the pupils, who watched his lips most
intently, and with no failure to un-
derstand. This is another great ad-
vance as the years grow. Certainly,
these are great gains. The time will
come when the terms 'mute' and
'dumb' will drop out of use as ap-
plied to those who have been denied
the sense of hearing. No worthier
charity can exist than that which
will bring those so afflicted into free
communication with their fellow-
beings. With the rest of humankind
they will become self-supporting and
contributors to the material progress
of their countries."

POT AND KETTLE.
Frenchmen found themselves freed
from the tyranny of a profligate
aristocracy and feudal institution by
Napoleon, only to discover that they
were in the iron grip of an absolute
despot. They had chafed masters,
but had not lost their condition of
servitude.

In the swelling agitation against
industrial monopolies, the American
people are likely to experience some-
thing similar to the Frenchmen. We
will be freed from the grip of so-
called capitalist monopolies, but we
should take care that we are not left
in the mercy of other monopolies,
which differ from the one displaced,
only in form. What the American
people want is industrial independ-
ence. It is not sufficient that our
present real or imaginary industrial
oppressors be overthrown; it is es-
sential that no other oppressors, in
whatever form, shall arise.

Reform does not consist in ousting

the other fellow so that we may ex-
ercise the same power we condemned
in him. To bring the general public
any relief, the reformer must scrupu-
lously avoid those acts which are
criticized in the old regime. If, after
acquiring power, the reformer pro-
ceeds to do as his predecessor did, it
is a case simply of the pot calling the
kettle black.

Organizations devoted to the re-
stitution of equitable industrial con-
ditions, should mark this distinction
closely. Their purpose is not legiti-
mate if they are seeking to acquire
the same control over industrial af-
fairs, which they so heartily disap-
proved in the individual, corporation
or organization that preceded them.
They must be content in establishing
a square deal for all industrial fac-
tors, and no more allow the cards to
be marked for them, than for any
other player.

NEIGHBORLINESS.

That trip proposed by the Commer-
cial club to Cairo to cement the
bonds of friendship between the two
cities, is a praiseworthy undertaking.
With the completion of the interur-
ban to Cairo, the distance, that sepa-
rates Paducah and that city will be
annihilated and citizens in each place
will have frequent and speedy com-
munication with one another.

There is every reason why the two
cities should pull together in the up-
building of this section of the coun-
try. When the river improvements
begin, it will be to both Paducah's
and Cairo's interest to work harmoni-
ously for the interests of the lower
Ohio. And any other project that af-
fects the welfare of the one, will in a
larger view, affect the welfare of
the other, so that all efforts made to
cultivate cordial good feeling, between
Paducah and Cairo, are forward
steps in the right direction.

What makes a city beautiful is a
question that involves as much the
history of the city as of civic develop-
ment, and the clean sweep, broad ave-
nues and ornate buildings of the lake
towns represent an era of develop-
ment of a date later than that of
grimy Ohio river cities, with their
narrow crooked business streets. In
the same way the uplands of the lat-
ter cities with curving boulevards and
intermediate improvements represent
cycles of growth, corresponding in de-
gree with the ancient and modern
quarters of oriental towns.

In Buffalo and Cleveland municipal
governments and citizens have striven
to one end—to make the city beauti-
ful. Their skyscrapers and business
blocks, their banks and hotels have
been constructed with an eye to the
esthetic as well as the practical.
Every triangle in a park with a mon-
ument. Wherever three or more
streets meet a shaft or fountain is
found. Delightful parks and boule-
vards are seen as elsewhere; but in
the residence sections surprising lawns
abound with a disregard of real estate
values that makes the stranger won-
der whether they are all so wealthy
as to care nothing for expense, or
whether the cities have grown up
around estates, which cost the owners
little originally, and which they pre-
fer to retain intact rather than to
sacrifice the luxury of room for the
convenience of ready money. These
home have distinguished the two
cities, and made them much talked
about. Their appearance and the
pleasure of living in such communi-
ties have been factors in the growth
of the lake towns.

Cities like Paducah, with her pros-
pect of improved transportation facili-
ties, that probably will see their best
growth in the next decade, would
do well to copy the spirit of these
lake cities. It was a much discussed
plan after San Francisco was destroy-
ed to rebuild the whole city accord-
ing to a definite idea and make a won-
derful show city, at no greater expense
than is incurred in the haphazard
fashion in which cities usually are
built. New suburbs and additions
laid out by real estate companies fol-
low definite designs and the results
are satisfactory from an artistic point
of view, attracting visitors and in-
creasing real estate values. This
shows that the San Francisco idea is
practicable and it would not be a bad
plan for harmony to be considered
instead of simply individual taste in
city building.

THE VANISHING FLEETS

By
ROY NORTON

ILLUSTRATED BY A. WEIR

(Continued from last issue.)

They drew back from him, fearing
that failure had loosened his brain;
but he rushed through the group, ex-
citedly calling for men to repair the
break. The admiral, unused to his
periods of enthusiasm, stared at him
blankly, his lower jaw unconsciously
dropping until his mouth yawned in
cavernous suspense. In his mind
nothing but insanity could account for
this outburst.

Norma, on the other hand, laid a
restraining hand on his arm and said:
"Father, what's the matter? What
is it?"

"We've been working in the dark!"
he answered vehemently, and then
with the inhibition of a boy but in a
calmer tone continued: "By an ac-
cident we have discovered powers in
our combination of electricity and
metallurgy that we have not dreamed
of, and which, if we can control them,
make the resistant armor we came
down here to manufacture as useless
as a wooden hull!"

The admiral suddenly dropped his
bulk to a stool. "Good God!" he
gasped, "are you mad?"

Norma, like one from whose eyes a
hoodwink has been suddenly removed,
and appearing almost to have read her
father's mind, put her hand out to his
shoulder and looked at him searching-
ly. A slow grin of great exultation
swept over the lean old face into
which she peered, drove the wrinkles
into the corners of the eyes, and a
mass of radiating furrows round the
mouth.

"You've guessed it," he said, and
then turned to the admiral. "Brookton,
you don't know what that hole meant;
but in an hour from now I'm going to
show you. That is, Norma, my as-
sistant, and I will."

Then in a sudden frenzy for work
he asked them all to leave until he
sent for them, and they, wondering
and speculating on his next endeavor,
obeyed. Only the workmen, who had
descended into the cavity and were
preparing to hoist the plate and mold,
and the admiral, by special invitation,
remained. The clang of hammers re-
sounded hollowly through the room
as the timbers beneath the floor were
shored up by the carpenters; then
came the setting of another and larger
tank than the one which had been
so unexpectedly driven into the earth.
The smaller plates which had been in-
tended only for experimental purposes
were exhausted, and therefore they
did nothing on which to operate save
two immense castings weighing many
tons. Wide sliding doors rolled back,
and workmen from the foundry, with
straining muscles and clanging tools,
slowly pushed in low-wheeled cars on
which rested the huge pieces of metal.
A steel crane projected its ungainly
arm, reached slowly down, and in a
flaming grasp picked up one piece,
moved it into position over the new
bed, and deposited it in a great basin
whose material indicated that it would
be able to withstand any heat.

The admiral in boyish exuberance
would have thrown wide the door; but
the inventor, remembering the other
contretemps, forbade. The latter
busied himself for a few minutes in
his storehouse, and returned with a
sheet of peculiar insulation which was
of his own invention, almost inde-
structible by heat, and a resistant to
any form of radioactivity, which he
placed with great care on top of the
huge plate. The second plate was
lowered squarely on top of this,
clamped for additional security, and
the workmen dismissed. The connec-
tions were made in identically the
same way as in the previous test, ex-
cept that one electrical apparatus was
attached to the upper plate above the
insulation and the other to the one
beneath. Brookton, seeing that the
currents were about to be applied,
backed off into the corner, until
stopped by the farthestmost partition.

"It's all right this time," the in-
ventor assured him. "Wild current
and wet floor before, badly insulated
handle, too. All fixed up now. Won't
be any accident this time," and so on,
making the final inspection of his ap-
paratus as he talked. Norma reviewed
her father's work, to be certain that
all was well, and then at a nod from
him took her station at the other mon-
itor which had not been used hitherto.
There was a simultaneous move-
ment on their part, and as if suddenly
endowed with a soul, the lights once
more flashed here and there, glaring
at them with sinister contempt—
Frankenstein's under control!

SOCKS

AND REGULAR GARTERS WORN BY PRETTY GIRLS

Showed Through the Slits in Sheath Gowns—Creates Sensation.

Old Orchard, Mr. June 26.—Men's half hose, the real genuine kind, carefully supported by men's real garters, clasped about the calf of the leg, is the sensation that eight Cleveland (Ohio) girls have sprung on the people in this aristocratic summer resort.

The girls are Theodora Henrietta Martie, of Euclid avenue; Miss Eliza Goldwalthe Thayer, Miss Eloise Huglin, Miss Eva Osgood Tabor and Miss Holmes, Harper, Eberole and Sweetair.

The girls are stopping at one of the most fashionable hotels in the city. Last night they appeared at dinner in Directoire gowns of the

very latest sheath models. Through the daring little slit at the side could be seen the half hose and the diamond-studded gold buckles of the men's garters used to support them. The affair has created a sensation here.

MONTREAL AND QUEBEC.

A veritable edition de luxe amongst railroad pamphlets has just been issued by the Grand Trunk to proclaim amongst tourists the glories of the cities of Montreal and Quebec. The brochure is beautifully printed, and generally arranged in the artistic style of earlier days, when the ornamentation of a volume was regarded as an important incident to its presentation of reading matter. It is also very well written, and gives an interesting description of the two most interesting cities in Canada, with many illustrations from photographs that have not hitherto been published. Sent to any address on receipt of a two-cent stamp. Apply to G. W. Vaux, 917 Merchants Loan and Trust Building, Chicago, Ill.

For house numbers, door plates, brass eticenes, brass and aluminum checks of all kinds, rubber type signs, markers. See The Diamond Stamp Works, 115 South Third. Phone 358.

CLARKSVILLE

MERCHANTS' LATEST VICTIMS OF NEGRO FORGER.

Same Party That Worked Numerous Paducah Merchants On Game.

Wearing the same makeup of a working negro, in dirty overalls and a woolen hat with holes in the crown, the negro who caught Paducah merchants on numerous bad checks a few weeks ago, bobbed up Saturday in Clarksville, Tenn., and from press reports the game was worked with as much success as in Paducah.

The game was put in exactly the same manner as at Paducah, the checks being for \$12 and signed by J. Manning, a well known contractor being signed. The negro made small purchases at nine different stores and was given cash in exchange.

The game has been worked in half a dozen West Kentucky and Tennessee

see towns and so far the perpetrator has been wise enough to avoid arrest. The negro operated under the name of Green at Clarksville.

CAPTURED BY BANDITS

Mexican Town Attacked By Band of Armed Men.

Laredo, Texas, June 26.—Two hundred armed and mounted men today attacked and captured the town of Viesca, Mexico. Three persons were killed and several wounded in the fighting.

Telegraph wires were cut, railroads torn up and a bridge burned. Troops left the City of Mexico to-night for the scene. The government believes the attack was made by bandits.

LAST DAY

GUTHRIE OFFERS SKIRT SPECIAL TOMORROW ONLY.

Saturday Brings to a Close the Biggest Sale in the History of the House.

Tomorrow is the Last Day of the sensational Move-On Sale at E. Guthrie company's and, judging from the values offered, it ought to be the biggest of the entire big series. When cut prices such as were originally offered are cut again, there is surely something doing and that is what has been done for tomorrow's selling at Guthrie's—table linens, wash fabrics, domestics, the very latest of the household have been ruthlessly cut to the very lowest point, not to mention their splendid line of wearing apparel. Women's Dress Skirts in volles, panamas, serges, batistes, broadcloths and other desirable fabrics are offered for tomorrow at exactly half price and the regular line is reduced one-third. It's just such spectacular strokes of underpricing which has made the Move-On Sale something to be remembered and anticipated from year to year. Mr. Guthrie expresses himself as thoroughly delighted with the magnificent response which the public has given his advertising for this sale and promises those who attend tomorrow, the last day, values more stirring than ever.

Mr. and Mrs. C. D. Rose and children of Evansville are visiting Mr. Ross' father, Mr. F. A. Boone of 1102 Jefferson street.

Fine Cigars in a Fine Case

It is an old saying that "clothes do not make the man," but when it comes to cigars, and the facilities for storing them and keeping them in condition, the reverse is true. You can take the best cigar in the world and, unless it is kept just moist enough, the bouquet is entirely lost.

We have just installed the finest and largest cigar case and humidifier in West Kentucky. The growth of our cigar business and the immense stock which we carry made it necessary. More than ever, ours is

"The Cigar Store of Paducah."

CULLEY'S SALE

ALL DAY LONG THE STORE WAS THROGGED WITH MEN.

Twenty-Five to Forty Per Cent Cut On Everything in the Big Stock.

Not often is such a magnificent endorsement given an establishment as was evidenced at Culley's mid-season stock reducing sale. The New Store deserves great credit for the successful manner in which they maintain their position as the store of new stocks and new methods, not the least important of which is the wholehearted manner in which they "clean house" before the close of each season. No reservations are made in this, or any other of their sales; they include every suit in the house—fancies, blues and blacks, two and three piece, and the scale of reduction ranges from 25 per cent to as much as 40 per cent off of the regular prices. And this discount is not confined alone to the Clothing Department, though that is, of course, receiving the lion's share of attention; every department in the store offers approximately the same sweeping reduction. Anybody who says that men are not natural "bargain-hunters" should pay an early visit to Culley's to have their theory utterly demolished. Why they yield to the lure of legitimate price reductions as the duck to low water; they simply can't resist the combination of beautiful clothes and low prices. Come tomorrow and see for yourself. Though some of the lines were exhausted by today's rush they have already been replenished and tomorrow the picking will be good as ever.

AT COURT HOUSE

LOVE-SICK SWAINS ARE UNITED IN A JIFFY.

License Clerk and Officiating Officer Are Always Ready to Do Their Part.

June bridegrooms who have an eye to both speed and economy in performing a matrimonial alliance, should take the McCracken county court house route. There is how one couple took the fatal plunge this morning.

Scene 1—County Court clerk's office. Enter prospective groom with out his lady and inquires for a marriage license. Asked how old the young woman is, Mr. Freeman Swar, of Marion, Ill., replies, 19 years. County clerk informs him that she must be 21 years old to get a license in Kentucky. Bridegroom looks non-plussed, but reckons that maybe he made a mistake in her age. Goes out and brings her in. Prospective bride enters and says she is 21 years old. County clerk has her to swear to the fact, which she does. She is Miss Ebbie Edwards of Marion, Ill.

Scene 2—County Judge's office. Horticultural Webb and Miss Fowler, county judge's secretary, witness. Couple stand in center of room facing Judge Lightfoot. Judge Lightfoot says: "Young lady and gentleman: You are about to enter upon a contract. It is a serious contract. Marriage in the sight of the law is a contract between man and woman, which can be broken legally under certain conditions. But in the sight of God it is an unalterable contract. There will be ups and downs in your lives, but there is no trouble that may arise that love cannot overcome. You must have a spirit of unselfishness and compromise or life will be a failure. If you are still in the mind to marry (bride and bridegroom nod affirmatively) I pronounce you man and wife."

Time from entering court house to leaving, 7 minutes.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of **Mother's Friend** before baby comes, as this innocent prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

Sold by druggists at \$1.50 per bottle. Our little book, "What to Expect When Expecting," will be sent free.

Billy Buck Wins Exciting Race From Harry A. by a Nose—Started Five Lengths Behind.

One of the prettiest races seen on the local track this year was pulled off Tuesday morning in the regular workout. Dick Patchen, an unmarked, topped over, Harry A. who is working on the track this year and Billy Buck, Mr. Thompson's trotter, scored away for a fast time. Billy Buck was five lengths behind at the start and won by a nose from Dick Patchen. They stepped the first half in 1:11 with Harry A. and Billy Buck trailing. The second half was stepped in 1:04 1/2. Billy coming through the stretch like a whirlwind and nosing Dick Patchen out in the last fifty feet. It was a fine race and worth going miles to see.

Entries for the July races are coming in nicely and every class looks like it will have a big field of starters. Arnold Patchen, owned by M. W. Rucker, will be a strong contender in the free-for-all pace on the Fourth and will make the flower of the local track. Phazy Blossom, step some mighty fast miles to pull down first time. 25c at all druggists.

Eczema is Now Curable.
A St. Louis chemist, after many years of careful experimenting and investigation, has discovered a simple remedy that has cured hundreds of cases of eczema that had been pronounced incurable. This chemist believed that eczema and all itching skin diseases were of local origin and were caused by germs which attacked and fed on the skin. He began to search for a remedy that would destroy these germs, and found that by combining the active principles of certain well known vegetable drugs, and applying them locally, the first application stopped the itching and burning, and if used persistently would drive all germs and their poisons to the surface of the skin and destroy them, leaving a nice, clear, healthy skin. He gave this remarkable remedy the suggestive name of Zemo, and since its introduction to the public Zemo has proved a very popular remedy and is today recognized the most successful and meritorious remedy ever produced for the relief and cure of eczema and all diseases of the skin and scalp.

Mr. Will J. Gilbert, the druggist, endorses and recommends Zemo and says that he believes Zemo to be an honest medicine and will do all that is claimed for it.

KY. DELEGATES TO MEET JULY 6

Will Select Chairman and Convention Committees.

Delegates said to Favor Ollie James for the Post of Honor at Denver Convention.

NEW COMMITTEE ORGANIZES.

Louisville, June 26.—According to the plans of National Commitmentmen, the delegates from Kentucky to the Democratic national convention, to be held at Denver on July 7, will meet in Louisville on Monday, July 6. The delegates will have to elect a chairman who will be the spokesman for Kentucky on the floor of the convention, a vice president and the state's representatives on the committee on resolutions, credentials, permanent organization and rules and order of business, as well as representatives on the committee to notify the nominee for president and one on the committee to notify the nominee for vice president, and a national committee to serve for four years.

The committee on permanent organization of the Lexington convention reported the names of the delegates from the state-at-large with the name of Representative Ollie M. James, of the First District, heading the list. All Democrats who have been heard to express themselves are of the opinion that Mr. James should head the delegation and cast Kentucky's 26 votes for Bryan. It is desired that the other honors be distributed in equitable manner.

The report of the committee on permanent organization in the state convention also recommended the reelection of Mr. Woodson to the national committee, and his election assured. The Davies county man has represented Kentucky on the national committee ever since the Chicago convention of 1926.

State Committee to Organize.
The new Democratic state committee will not be organized until after the Denver convention is held. It is understood that under the new scheme most of the meetings of the state committee will be held in Louisville and in Lexington. At the first meeting the new committee will formally elect Henry R. Prewitt chairman, and George Spear, of Lawrenceburg, who is a candidate for secretary, claims to have enough votes to win. Many Democrats are urging that the new committee establish permanent headquarters in Louisville just as the Republicans have done. It is said that this will be one of the first questions that the new chairman, Mr. Prewitt, will present to the committee. At the first meeting of the committee it is not improbable that a campaign committee will be named to take charge of the fight for Bryan in the state.

No Meeting Called.
The Republican state central committee is slow in completing its organization. It has never yet met to elect a secretary, but former State Senator Aylis S. Bennett, is still on the job.

BLACKBURN DENIES

He Has Intention of Using Marines at Panama Pools.

Washington, June 26.—A special from Panama published in the Post today, quotes Gov. Blackburn as saying that he has never had any intention of stationing marines at the pools on election days, June 28 and July 12. He considers that statements to the contrary were inspired by malicious politicians with a view of provoking ill feeling against the United States.

"The Blood is the Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought is directly traced to the impurity of the blood. **Purify impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery.** It cures and cures the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, leprosy, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle wrapper, the same being attested and correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

HARVARD CREW IS VICTORIOUS

Yale Eight Defeated Half Mile in Eventful Contest.

Crew Became Crippled—Secretary Taft and Roosevelt Family Witness Race.

PRESIDENT WAS NOT PRESENT.

New London, Conn., June 26.—Amid the deafening din of steam whistles and horns, and amid the frenzied shouts of collegians, the Harvard varsity eight shot their boat over the finish line, winning from the crippled and distanced Yale crew in the Harvard-Yale varsity boat race. But instead of a victory, Harvard finished the last mile and a half alone, while far behind Yale limped along with but seven men at the oars, with Griewood the stroke man, who had been reeled upon to set the winning pace—beaten forward, limp and faint from the terrific strain of the opening two miles.

Taft Was Present.
For the first time the president of the United States was taking a keen and active interest as champion of the crimson colors, and although compelled by circumstances to be absent himself, the spirit of the enthusiasm was voiced by the Roosevelt family who witnessed the contest from the deck of the presidential yacht. Yale was more fortunate in having her distinguished champion, Secretary Taft, present in reality, the central figure of a group of collegians aboard one of the observation trains.

Conditions Favorable.
The race was rowed under most favorable racing conditions. The water was a clear, open course 200 feet wide, marked every half mile with red and blue standards. Every eye was riveted on the swaying bronze forms in the boats as they bent to the terrific strain 20, then 30, then 34 strokes to the minute.

Death Was on His Heels.

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had my friends, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found that New Discovery is the best remedy for coughs and lung disease in all the world. Sold under guarantee at all druggists, 50c and \$1.00. Trial bottle free."

The defendant testified that she killed the Terry woman, her defense being the unwritten law. The testimony was sensational. She was held for murder, but owing to the difficulty of caring for her baby she was granted bail in the sum of \$2,000.

Constipation Ruins Health

You can't be constipated and healthy. Constipation is the arch enemy of health. It causes more sickness than any other condition. It is the forerunner of appendicitis, blood diseases, skin diseases, it makes you more quickly liable to colds, malaria, pneumonia and fever diseases. It is far from the trifling ill that many unthinking people believe it is. One often hears the expression, "I'd be all right if it wasn't for my stomach." Most assuredly. The majority of mankind would be in nearly perfect health if it wasn't for constipation or dyspepsia. But knowing its dangers the thing of next importance is to fight it. The greatest foe of constipation is Dr. Caldwell's Syrup Pepsin. It was designed for that very purpose. Thousands of individuals and families are today to fight the ailments of the stomach, liver and bowels. The cure it has made prove it to be a wonderful remedy in constipation even of the most obstinate nature, and every constipated person should use it and know from personal experience what it will do.

Cured by Dr. Caldwell's Syrup Pepsin

I needed a good deal of sound in my head in the army which caused a partial paralysis of the bowels and from that time to the present I have had to use laxative. I have tried a great many kinds of medicines in that time but have never found any as effective as that has been my experience with Dr. Caldwell's Syrup Pepsin.

HARRY H. CHAPMAN, Doctor, Ill.
I have had stomach troubles for twenty years and was in bed half the time. I commenced taking Dr. Caldwell's Syrup Pepsin and after taking three bottles I was cured and have never been troubled since. You can't make this too loud a statement. I have no more pain in my stomach, have a good appetite and am doing well. I have no more to say. (See "Caldwell's Syrup Pepsin" Book Review, Washington, D. C.)

ALBERT J. LUTHER, Doctor, Ill.

Prison Life Brings Romance to Powers.

York, Pa., June 26.—Caleb Powers, the Kentuckian recently released from prison, is in this city, visiting it by next September my health is Eleanor Bonham, to whom it is rumored he is engaged. Miss Bonham is a member York's society set and is extremely wealthy.

She met Powers years ago in Kentucky, where she attended school. Powers, when he arrived here, stopped at the Colonial Hotel, where he instructed the attaches to say nothing of his visit. He spends most of his time at Miss Bonham's palatial residence at East Market street. He says he will remain here for several days.

Miss Bonham is the daughter of Mrs. R. L. Bonham, a member of one of York's oldest families. The young woman has inherited several fortunes. She is comely in appearance and a well-known horsewoman. When asked in regard to his plans for the future the ex-Secretary of State said:

"My chief interest is now my health. It is my intention to devote the summer to recuperation, of which I am greatly in need. I have planned to enter a sanitarium at Battle Creek, Mich., and remain there for rest and treatment until my physical condition improves sufficiently to warrant me in resuming professional activities. It is by next September my health is restored to me I shall again take up the practice of law."

VESSEL SINKS; 60 DROWNED
Larache of Trans-Atlantic Line Is Wrecked Off Coruna.

Madrid, June 26.—The steamer Larache, belonging to the Transatlantic Company, struck a rock off Coruna today and was wrecked. Sixty passengers were drowned. The ship struck close to a place where the Spanish cruiser Cardinal Cisneros was lost. The Larache sank rapidly.

BREACH HEALED

TAFT AND FORAKER TO JOIN FORCES.

Senator's Re-Election Part of Agreement In Turn Will Try to Swing Negro Vote.

New Haven, Conn., June 26.—For several weeks persistent rumors have been in circulation that an amicable working agreement should be reached between the Taft and Foraker forces in the War Secretary's home state of Ohio.

When Senator Foraker added to those of other prominent Republican leaders his congratulations to Secretary Taft on his nomination to the presidency the rumors were revived. It can be said that all of the exchanges on political Senator Foraker have been published. They consist merely of Senator Foraker's congratulatory message and the Secretary's response thereto.

When Secretary Taft's attention was directed this afternoon to the report from Washington that he would favor Foraker's re-election to the Senate he remarked that he would prefer to say nothing at this time concerning it.

Refuses to Talk.
"Just say," he added, carefully measuring his words, "that I decline to discuss that matter at this time. All that has passed between Senator Foraker and me has been published. I cannot say anything more at this time."

Secretary Taft personally has had no more than mere formal communication with Senator Foraker since the Chicago convention, but it is known that friends of both are making efforts to bring them into harmonious relations, and it is believed their efforts may meet with success. The Secretary's visit to Cincinnati, his own as well as Senator Foraker's home, afforded the mutual friends of the Secretary and the Senator an opportunity to discuss the subject of a general understanding and working agreement between the two Ohio statesmen. That opportunity was embraced, and the negotiations have been proceeding between those friends.

While the discussions of the subject have not yet reached a definite eventuation there are abundant indications that the Ohio Republicans will dissolve their differences and support earnestly the ticket nominated at Chicago. This is known to be the expectation not only of Secretary Taft, but also of Senator Foraker.

Will Speak to Negroes.
That Senator Foraker will go on the stump in Ohio and make the effort of his life to carry that State for the Republican ticket is confidently believed by Republicans high in the councils of the party. There have been recent conferences among influential Republicans on national affairs, and they have tended strongly to bring about this result. On the other hand, it is hoped by his friends that Senator Foraker is to have the support of Mr. Taft and other leaders in Ohio politics for the senatorship.

As soon as the convention had nominated Taft and Sherman, the problem involved about Mr. Foraker's campaign in behalf of the negro soldiers of the Twenty-fifth regiment became a matter of especial interest to the Republican leaders and was one of the first things to receive attention. It was recognized that unless the negro voters of Ohio should turn out and give their full voting strength to the Republican ticket that State might be endangered. Even should 50 or 75 per cent. of them remain at home and not vote at all, Republican supremacy in that State would be jeopardized. For that reason it was insisted upon that Mr. Foraker should actively go on the stump, and make at least one or two speeches in which he would direct his remarks toward the interests of the negro voters. In this speech, it is believed, he will advise them that their only hope for legislation enabling the president to restate the negro troops will be in securing a Republican Congress, for that no such legislation would result from a Democratic Congress. Not only that, but a Republican President, he will tell them, is their only hope of fair treatment. Both the Foraker and the Warner bills for the reinstatement. Both the Foraker and the

negroes will come up for action next December. He will tell them that if the Sixty-first Congress is to be a Democratic Congress, there will be every incentive for Democrats in the present Congress to delay action on the Brownsville affair, and in that way their interests will be shown to be wrapped up in Republican supremacy.

Word has been passed around among Republicans here concerning this prospect of reconciliation between the Taft and the Foraker factions in Ohio, and the fact that it is believed they will be found working thoroughly in harmony is causing a great deal of favorable comment among men who are taking an active part in the campaign.

Sensor Foraker is making an automobile trip from Washington to Gettysburg and return. He is expected to be back here in a day or two, and will soon proceed to his home in Ohio, preliminary to a summer vacation.

rollers and grading machines are constantly at work keeping the improvements in shape.

The best section of the city is bound to grow in that direction only because the rivers and lowlands shut off every other avenue of development.

Every one of the eight hundred lots constituting the addition cannot be sold except under certain building restrictions, included in the deed, requiring that houses of from \$800 to \$4000 be built thereon. The average of restrictions is from \$1,500 to \$2,500. The lots selected by The Sun are in a neighborhood where not less than a \$1,500 house may be built.

No lots have been sold at private sale from this addition, there having been one public sale last fall, during the worst of the panic, at which \$15,000 worth of these lots were sold at auction, many of them for from \$100 to \$800 for a single lot, and they no better than the lots selected by The Sun and valued at \$700 for the two.

Among those who purchased lots last fall are O. L. Gregory, who will build a \$10,000 home in the addition, W. M. Karnes, C. K. Wheeler, J. W. McKnight, Mrs. Lucy R. Ford, J. W. Hall, Frank Kirchoff, and Hiram Smedley.

Several of the above and a number of the other purchasers are contemplating the immediate erection of fine homes, all of which will be within a short distance of The Sun lots.

The beautiful homes of J. C. Utterback, James Campbell, Jr., and D. A. Yelzer are on the edge of the addition and the fine summer residences of J. L. Friedman, R. B. Phillips, and O. L. Gregory are a short distance beyond on The Pines Road.

The Sun lots are on the corner of Thirty-sixth Street, a new street built by The Gregory Heights Company, and The Pines Road, a beautiful and popular country drive, and a main thoroughfare.

Come Take a Ride. If you have not already taken a look at these lots which constitute the First Grand Prize in the contest, phone to the contest man and he will take you out to look at them. He wants every contestant to know what traction company.

The streets have not only been graded and gravelled but steamhows.

DR. SULLIVAN

DECLINES HANDSOME OFFER ON LECTURE COURSE.

Manager of Wilbur Chapman Literary Bureau, Wanted Paducah Man to Tour Texas.

Dr. Grant T. Sullivan, pastor of the Broadway Methodist church has been signally honored by an offer from the management of the J. Wilbur Chapman literary movement of New York, to deliver thirty lectures in the state of Texas, throughout the month of July. The offer included an agreement to pay all of Dr. Sullivan's expenses as well as a handsome salary. It was desired to have a Kentucky preacher take part in this movement, which is of an educational nature and Dr. Sullivan was chosen.

However, he has declined the offer, as he does care to leave his church for so long a period.
